The Carson Daily Appeal

CARSON CITY: Thursday,July 31, 1873.

NEW BOOKS FOR THE LIBRARY .- Some fifty or sixty volumes have been added to the State Library within the last week. They comprise the principal works of Spenser, Tyndal, Harkey, Dar-win, Mills and other representatives of latter day progress in science. Many in the community who have not been able to purch se these works for themselves will be pleased to learn that the same will be pleased to learn that the salic are now where they may get them through those who have library privi-leges. Of Herbert Spencer's Works, we observed his "First Principles of Philo-sophy." "Essays—Moral, Political and E-theric," "The Conditions Essential to Human Happiness," "Education," "Illustrations of Universal Progress, and "Principles of Biology." His lectures on Sociology—probably the most interesting of all his works—have not appeared in book form as vet, and for appeared in book form as ver, and for this reason have not been procured for the State Library. "Heat as a Mode of Motion." "Sound." "The Forms of Water," "Fragments of Science" (con-taining the celebrated treatise on the Protoplasm or Physical Basis of Life). "Contribution to Milecular Physics in the Domain of Radiant Heat," etc., are from the searching and graphic pen of Tyndal. Hayley's "Man's Place in Nature," "Lay Sermons, Addresses and Reviews," "The Anatomy of Vertibrated Animals" are also in the collection. Added to these are other characteristics. teristic and highly valuable works by Stuart Mills, Hall y, Scheilen and others of note in the literature of the present animals having been kept in the city in

"Hung Up." - An immensa float of wood-thirty thousand cords or up wards started down the Carson within the last few days, but owing to a sudden fall of water in the river, there being no snow left on the mountains to supply the stream, the entire float got "hung up" or thrown aside on the shores to the right and left along a line extending from Empire to a point on the river two miles south of the State line. A consultation washeld yesterday among the owners of the "float"—Messrs. Jones, Smith, Sabin, Flanders and others and it was determined to let the wood remain until the rise of the river next Fall. Keeping so enich wood out of market will probably tone the price, which has been sinking, sufficiently to make up for the loss involved in having so much capital idly invested.

Sofre.-The hop given by the ladies of the Episcopal Church, night before last, was a remarkably pleasant affair. in spite of the surging thermometer. The hall (Moore & Parker's) was not crowded, but the attendance was pretty fair, the number of ladies and gentlemen being about equal. All that were present joined in the dance and chat. The hall was pretty well ventilated. The cool air through the numerous wind ws and a plenteons supply of good lemon-ade and ice cream kept down the rising perspiration. One might have thought it could to see the young folks dance. The music was first rate, delivered from three pieces in good time. The pro-gramme of seventeen dances was danced. and towards 2 o'clock A. M. the entertainment had gradually come to its death. Fifty dollars, about, were realized for the good of the church.

Homerparmic -Do not be afmid of hot baths in this warm weather. They ing train of the V. &. T. for R-no, last are the most invigorating and consistent with the laws of health at this season. A drought of hot tea at mid day in sammer renews the action of the system and induces a temporary persperation which steamer down the constant of the system and induces a temporary persperation which steamer down the constant of the system and induces a temporary persperation which steamer down the constant of the system and the bis wife and two of induces a temporary persperation which is followed by a delightful sensation of coolness and exhibitant. Like cures like. The worm applies about a null and a half from Cusson to think the court of this children. Illness necessitated his a sense a half from Cusson to think the court of the children. Illness necessitated his a sense a half from Cusson to think the court of the cour may have a pleasant ride gratis, fifty cents paying for the both and all, denorstrate this principle delightfully, M. Lachapelle is a true Frenchman. McCarthy of Maysville, in heaven. genial, politic and attentive to his guests, long ago, came on with her mode and grines homeography there are shower Dubir, (Saider Pierson that used to be)

U. S. Meyr. - Seventeen handred and thirty-live pounds of mixed bullion, gold | a family gathering. and silver, were received at the Carson Mant, yesterday, sent in from the Comstock for melting and assay. The Casu-ier of the Mint, on the same day, deliv-ered to Wells, Fargo & Co., Carson, seventeen unparted burs of gold and Eagland, to the credit of the Crown Point Mine, Gold Hill, N-vada The bars were worth \$53,000. On Tuesday and Wednesday, this week, the Coiner run through the press 22,000 haif dollars and \$18,000 in double eagles.

Trade dollars come next, of which thousands will be coined this week.

MESSES, FOSTER, FREEMAN & Co. have their business in admirable order. It is a pleasure to pass through their store and observe the order and dispatch of their management. At present they have on hand a fresh supply of every ar-ticle within the extensive sphere of their trade. This supply is constantly replenished, and the stock kept fresh.

It is expected that Judge Harris will be here to-day to take action concerning that crazy colored woman who has be n in jull so many days. She seems to be by certain itin rant shin hopelessiy demented.

BOHN.

In Carson City, on Wedn wlay, July 30, 1873, to the safe of L. Morris, a daughter.

MARRIED. In Carson City, July 20, 1874, by Rev. James Woods, Mr. Jacob Bergantz to Sophia Lassa, all of Carson.

One friend Yokel's marriage ball was just being ushered in at 'Turner's Hall had to vamoose the ranche. More to-

As Oliver Goldsmith derived wisdom and good counsel from an imaginary Chinese Savan (as he lets us know when discoursing on a Citizen of the World,) so may we get good advice from a real, live Japanese political economist who promulgates a decree, of which the following is a copy, through the columns of the Japan Gazette:

PROCLAMATION .- Oven, pigs and other considerable numbers thereby occasion-ing fevers among the people, which have proved fatal in several cases; and also breeding infections cattle discuses; it is hereby ordered that animals must not be kept in close buildings situate in the city, and within a period of thirty-live days from this date all animals must be removed from the city.

SANJO SANEYOSHI, DAIJO-DAIJIN.

THE REV. JAMES WOODS, Pastor of the Presbyterian Church of Carson, performed his last off gal act -for a monthlast night, in making one, of the two last night, in making one, of the two happy Germans, whose marriage is noticed elsewhere in the APPERL of to-day. The Church over which Mr. Woods presides has taken a vacation for a month, and in order to make the most of the time and be refreshed for renewed labor, the reverand gentleman took the 10-30 train last night for San Francisco, ware he will meet his fam-Francisco, where he will meet his family and be with them during his holi-We wish him a pleasant journey and safe return.

Signal Lights .-- Last night a few minutes before nine o'clock three brilhant lights were seen to the northwest and northeast of town. Two app aring near together on the summit southwest of Washoe Lake could be seen by look-ing over Mrs. Brooks' shop from Rail's corner. The other was visible from Rosenstock's corner to one looking Wincie & Divid's stable to the left. These lights appeared nearly simultaneously, and were taken by the people who gathered about in little kn is to watch them, for signals along the line of the divide concerning the progress of the Gold Hill and Virginia water works.

Mr. MIGHELS, Elitor of the AFFENL. was among the passengers on the even-

boths provided. Call and see and feed also get back here yesterday—came for a the wonders of these springs. O. H. comes around for his periodical visits he generally manages to engineer

> DR. WATERS tells us that the kind of cholera or colic trouble that has been distressing our good people so much of Lite, and which had some five or six wretched Cusonites tambling and grumbling all of last Sanday night, is epi-demic. He says the disease comes of undering but of midaria, he added, we have much to learn.

MR. O. H. PIEBSON who is as well known to the old timers hereabout as the original sage-brush itself came to town yesterday morning from his present home in New York. He looks in vigorons health and reports his business prospects encouraging. Glad to see him. He will spend a few days here visiting the members of his family.

BURGLARY .- The locker under Jack son's bootblack stan I, front of the Court House block was burglarized night before last and brushes and like implements of the profession to the amount of three dollars or more taken therefrom. suspected that this raid was p-rpetrated by certain itin rant shines of the hood-
